BELMONT**

Hidetaka Yoshikawa
Chairman & CEO

Our mission is to help people fulfill their wish to remain beautiful and healthy by providing superior products and services.

It's the common pursuit of beauty and health that unites people of all countries, generations and eras. And while we have provided products and services to the world for countless years, the role we all share continues to be a steadfast reminder of the love and responsibility that first sparked our passion.

We strive for innovation and improvement. The shifting-tides of digitalization and globalization drew waves of change: change in the way we live, change in corporate management, and change in society. With this change, we expect society to look towards our industry for answers to growing needs in the beauty and health fields.

With an eye towards the future, we continue to advance in all areas by maximizing the potential of technology, expanding our capabilities and creating value for our customers through new products and enhanced services. The tremendous value placed on our customers is unwavering and remains as both a priority and tribute to our success.

With a diverse culture of resources, we embark on a journey to improve ourselves – and the world – for years to come.

A handwritten signature in black ink, reading "Hidetaka Yoshikawa". The signature is fluid and cursive, with a horizontal line above the name.

CRAFTSMANSHIP

Simply stated, it's all about the time – the time invested with sourcing superior quality materials, the time we have devoted to our Takara Belmont 16-point quality inspection, and the time we have added for hand-crafted quality production. As advanced traditionalists, our products have been refined by generations of experience and an ever-lasting commitment to our customers and the health and beauty industries.

Our fine-tuned process provides our customers with the next-level products and services you've come to expect from Takara Belmont. It's our ahead-of-the-curve philosophy that drives all of the production advancements including laser-guided upholstery cutting that decreases material fraying while increasing product longevity, 960° thermo press technology to ensure long-lasting impressions and carefully calibrated pneumatic tools to pinpoint accuracy from the bolts up.

SHOWROOMS & OFFICES

Today, salon and spa customers are looking for more than just the basics. As a beauty professional, you want to provide them with the amenities that they have come to expect. Our sales and design team at Takara Belmont can help you create an environment that will attract customers and make your business successful.

Whether your project is large or small, we provide you with the assistance you need to create what you've always wanted. You can be confident that you're dealing with the industry's leader in innovation, quality, and breadth of options. You will know that everything you install in your salon is manufactured to last a lifetime.
